**ALASKA PUBLIC MEDIA RECEIVES NATIONAL EDWARD R. MURROW AWARD FOR RADIO NEWSCAST “ALASKA NEWS NIGHTLY”**

The award, which AKPM received for *Alaska News Nightly* is in the Small Market Radio category for Newscast. This recognition follows a 2020 win for Excellence in Video for the short film “The Legacy of Maryann Sundown and Agnes Aguchak”, which was co-produced with partner station KYUK. Among the most prestigious recognition in journalism, RTDNA has been honoring recipients with the Edward R. Murrow Awards since 1971. According to RTDNA, “the Murrow Awards recognize local and national news stories that uphold the RTDNA Code of Ethics, demonstrate technical expertise, and exemplify the importance and impact of journalism as a service to the community.”

*Alaska News Nightly* broadcasts on Alaska Public Media radio in communities throughout Alaska, additionally available to stream on alaskapublic.org, or using the Alaska Public Media mobile app and other commonly used podcast platforms.

"This award is a big deal within the national news media industry. The accolades belong to all of the reporters in our newsroom and across the state at our partner stations. It’s our collaborative, statewide reporting work and the support of it that makes Alaska News Nightly a big winner!"

-Lori Townsend, News Director of Alaska Public Media
HALIFAX: RETRIBUTION
STREAM NOW WITH AK PASSPORT OR TUNE-IN THURSDAY, SEPTEMBER 30

A sniper is on the loose, as Jane Halifax comes back to the rescue to find the sniper before it’s too late. After years, the race for answers is more important than ever.

Melanie, an Alaska Public Media Member provided this insight on the series after streaming with AK Passport:

"The storyline is fascinating because most of the knowable facts are wrong assumptions - by police, by the sniper, by Jane, and by her family of choice. No one knows what they think they know!"

GUILT ON MASTERPIECE
TUNE IN OR STREAM SUNDAY, SEPTEMBER 5 & 12

“It’s not the crime, it’s the cover-up” goes the old saying. But that didn’t stop brothers Max and Jake from hiding their guilt after running into an elderly pedestrian during an inebriated drive home from a wedding. Mark Bonnar (Unforgotten) and Jamie Sives (To the Ends of the Earth) star as Max and Jake in a darkly absorbing tale of rascality and deceit, on Guilt, airing in two parts on Alaska Public Media TV.

Guilt costars Ruth Bradley (Pursuit) as Angie, the niece and closest relative of the hit-and-run victim, named Walter. Arriving in Edinburgh from her home in Chicago, Angie meets Max and Jake at Walter’s wake, where they have come to retrieve incriminating evidence. Angie and Jake hit it off, which complicates Max’s plan to escape justice.
Watch a new film exploring our relationship with cannabis, uncovering what scientists have discovered about the plant's effects on the body and brain, including its potential risks and medicinal benefits, and the demonization and criminalization that has disproportionately harmed communities of color over several decades.

“It’s shocking how little we actually know about cannabis, since scientists have not been able to thoroughly study its effects,” said NOVA Co-Executive Producer Julia Cort. “This film presents a timely look at what we know about the potential benefits and risks of cannabis use, while also examining how the plant has been weaponized against marginalized communities, causing irreparable harm. We hope The Cannabis Question will inspire people to join the national conversation about cannabis—not only around what researchers have learned about the plant, but the science that could be done in the future, as well as the powerful impacts it can have on society.”

The film presents the current understanding about the potential medical benefits of cannabis, while raising questions that require more research. Along the way, viewers hear personal stories from individuals who use it medicinally to treat ailments that include side effects from chemotherapy, PTSD, anxiety, and chronic pain—helping patients cut back on the use of opioids and other pharmaceutical drugs. NOVA follows Stanford neuroscientist Catherine Jacobsen, who experimented with CBD extracts as a treatment for her son, whose chronic epilepsy was causing crippling seizures and was not controlled by pharmaceutical drugs.
**FUTURE OF WORK**
TUNE IN WEDNESDAY, SEPTEMBER 1, 8, & 15

*Future of Work* is a three-part series exploring monumental changes in the workplace and the long-term impact on workers, employers, educators, and communities.

Since early 2020, the world has been rocked by triple crises: the global pandemic, the ensuing economic disruptions, and the fore fronting of long-existing racial inequities. U.S. unemployment was at a rate not seen for more than a century. A majority of Americans now report economic distress and concern about the future for themselves and their families. The usual ladders to security—education, hard work, life-long employment—appear to have broken down.

These realities are not distributed equally; many high-earning white-collar workers stay employed virtually. *FRONTLINE* and service workers, disproportionately people of color and recent immigrants, have been hit hardest by COVID-19 and the ensuing economic hardships.

“Is the U.S. about to enter a future of entrenched haves and have-nots? With education becoming virtual, long-standing debates about the value of post-secondary schooling and training programs are creating more uncertainty about how to prepare for the jobs of tomorrow. How do we protect and preserve opportunities for work that sustains families, communities, and the nation – a fundamental aspect of the American Dream?”
